Position: **Network Attendant (CITM)**

Main Purpose

The Network Attendant will be responsible for CAT6 cabling, conduiting, and network infrastructure maintenance across the campus. This role requires expertise in handling electric drills, staircases, and network tools to support seamless IT connectivity.

Reports to: **Head CITM**

Duties & Responsibilities

- Laying CAT6 cables, performing I/O terminations, and handling network installations such as CCTV cameras and Wi-Fi access points across the campus.
- Carrying out cabling and conducting tasks as assigned by the Network Support Team Lead.
- Inspecting and maintaining UPS units installed in network racks to ensure uninterrupted power supply.
- Organizing and dressing network racks using cable managers and ties for a neat and efficient setup.
- Assisting with basic troubleshooting of network-related issues as directed by IT support Team Lead.
- Ensuring compliance with safety and technical standards while working with electrical tools and network infrastructure.

Qualifications & Experience

Education:

· 10+2 or ITI Diploma in a relevant field (Electrician, Networking, or related domain).

Experience:

· 2-3 years of experience in network cabling and infrastructure work.

· Freshers with strong technical skills and an excellent academic record will also be considered.

Key Skills & Requirements

- Proficiency in CAT6 cabling, I/O splicing, and network installations.
- Ability to operate electric drills, power tools, and staircases thought campus.
- Basic knowledge of network racks, conduiting, and UPS maintenance.
- Strong problem-solving skills and the ability to work independently and in a team.
- Physical fitness to perform tasks involving lifting, climbing, and working at heights.
