Admin Officer

With effect from September 1, 2024, "Every Wednesday Vehicle Free Day" is to be implemented.

Kindly display this message at the prominent locations in the campus, including all gates. In the display, vehicles exempted should be mentioned to avoid any confusion.

Sub Major Hari Singh has prepared the text/email, to be circulated, which is in the trailing email. In the exempted vehicle, also include personal vehicles (as many parents do it) with school going children, besides school vehicles, so that there are no issues at the gates.

For any clarification, I am available at my office at 9.30 am on tuesday..

I suggest the following

Before Sep 1, circulate email 2-3 times, one email must two days before Sep 1.

And also every Tuesday morning, email should go to all. We need to take it with utmost sincerity.

Thanks.

Dear Sub Major Hari Singh

Have discussed the policy with the Hon'ble Director.

We will implement this from September 1, 2024.

You can publicize this sometime in mid August so that people are aware of this.

Regards

I think we should exempt June, July and August and rainy days.

Dear Sir,

I had a discussion with the Admin Officer regarding enforcing "Every Wednesday Vehicle Free Day", telling him that we should have a published policy, as to what kind of vehicles are allowed or what now. There were issues in the past. He has drafted a policy. I am OK with it.

Should we go ahead with this with effect from July 1, as it is extremely hot in June.

Dear colleagues ,

I hope this message finds you well.

In our ongoing efforts to promote sustainability and reduce our carbon footprint, we are designating every Wednesday as a vehicle-free day on campus. Only bicycles, electric vehicles, school vehicles, food & courier delivery vehicles & ambulances will be permitted on campus every Wednesday.

For those commuting by other means, please use the designated parking areas:

- ****Main Gate:**** Main parking area.
- ****Western Gate:**** Parking opposite M Hostel.
- ****R&D Area:**** Parking near the boundary wall inside the campus.

We encourage everyone to participate in this initiative to create a healthier and greener environment for all. Your cooperation and support are greatly appreciated.

Thank you for contributing to a sustainable future.

Best regards,

Sub Major Hari Singh
